The Frances Shimer Academy

THE RELATION OF THE ACADEMY TO THE MT. CARROLL SEMINARY AND TO THE UNIVERSITY OF CHICAGO

The school which for forty-three years was known as Mt. Carroll Seminary has, by the wish of its founder, Mrs. F. A. W. Shimer, become an affiliated school of the University of Chicago. After much consideration it was decided that a separate board of trustees should be organized to take charge of the school. The board consists of fifteen members, representing the University of Chicago, the alumnae of the Seminary, and the citizens of Mt. Carroll.

The relation of the Frances Shimer Academy to the University of Chicago is a double one. In the first place, it is an affiliated academy of the University,

and as such, the work of instruction is under the direct oversight of the University. In the second place, five of the fifteen trustees are mustees of the University. Among this number are the President of the University, Dr. W. R. Harper, the Comptroller, the Secretary, and Professor F. J. Miller, the University Examiner in the Department of Affiliations. While, therefore, the Academy will sustain a relation to the University so intimate as to justify its name, it is an independent institution and seeks a constituency of its own.

This constituency, it is hoped, will include all the friends of the Mt. Carroll Seminary. The new school recognizes the true excellent work done in the past, and hopes to carry forward into the future all that is best of the old. It will always have a hearty welcome for alumnæ and old students of the Seminary, and it asks their co-operation and support in the effort to perpetuate and advance the best interests of their old school.

SITUATION, BUILDINGS, AND GROUNDS

The Academy is situated at Mt. Carroll, Ill., the county scat of Carroll county, one hundred and twenty-eight miles west of Chicago, on the Chicago, Milwaukee & St. Paul Railroad, which, by its Southwest and Pacific divisions, brings the school into direct communication with Chicago, Omaha, Kansas City, Minneapolis and St. Paul, Milwaukee and Rock Island, and through these with all parts of the country.

THE FRANCES SHIMER ACADEMy

The town of Mt. Carroll is ten miles from the Mississippi river, beautifully located among picturesque hills, and is justly celebrated for its beauty to located among picturesque hills, and is justly celebrated for its beauty beathfulness. The grounds consist of twenty-five acres planted with ornamental healthfulness. A kitchen garden supplies the table with fresh vegets and fruit-bearing trees. At her decease, Mrs. F. A. W. Shimer left the bulk of her property in trafor the benefit of the Academy. The property consists of money and real estate thiefly in Illinois, Iowa, and Nebraska. The income from this property makes it possible to furnish excellent facilities at a price comparatively low.

IMPROVEMENTS

Important and valuable improvements were made in Center Hall during the past year, adding much to the attractiveness of the building. The dining-more was entirely re-made, including new floor and new ceiling, and new throughout. Steam heat replaced the hot-air furnace throughout Center Hall further improvements are contemplated for this season.

ADMISSION

Applicants for admission to the Academy are examined in Arithmer. English, History of the United States, and Geography. Graduates of approve high schools are excused from taking the examination for admission. No su dent need hesitate about coming to the Academy through fear of being excluded by the entrance examinations. The Introductory Year furnishes an opportunity to make up deficiencies. Students will be admitted to advanced classes on persenting written statements from instructors giving detailed account of work doze or from examination showing their qualifications to carry on the work of these classes with success.

A STUDENT'S ROOM

Courses of Study

Academic Department

The Courses of Study in the Academic Department include the studies necessary for admission to the best colleges, in addition to certain advance courses usually taken after entering college. Each student will pursue such of the studies as may be required by the college or university which she desires to enter; or, if she prefers, such other work as may be agreed on.

In the statements which follow, a unit usually represents an exercise daily for the usual school year. In a few of the subjects the recitations occur three or four times a week instead of daily.

Students who complete fifteen units, or thirteen or tourteen if desired by pupil or parents (two of which must be in English, two in Latin, one in History, one in Mathematics, and one in Science), from the list below, will be entitled to the diploma of the Frances Shimer Academy.

THE FRANCES SHIMER ACADEMY

Students may be admitted to the University of Chicago upon completions Students may be admitted the units mentioned below (except those this Academy any fifteen of the units mentioned below (except those marks) this Academy any fifteen of the subjects offered for examination include at least with a *), provided that the subjects offered for examination include at least with a *), provided that the subjects offered for examination include at least with a *), provided that the subjects offered for examination include at least with a *), provided that the subjects offered for examination include at least with a *), provided that the subjects offered for examination include at least with a *), provided that the subjects offered for examination include at least with a *). with a *), provided to at the latin, two units of English, two and a half unit of History, two unit of Physics. Mathematics, and one unit of Physics,

The Academy examinations by the University are held every twelve Reports showing term and examination standing will be indicated by the length Reports showing term and have completed these examinations in the letter A to E. Students who have completed these examinations in the required A to E. Students with the University of Chicago, to Wellesley, Beloit, Manual of the Chicago, the C Holyoke, and other colleges without further examination.

The time required for graduation from the academic department is are

four years. The Courses of Study offered are as follows:

four years.	French:
### History: 1. Greece	Elementary and Advanced work as in German
Creek: Inductive Primer, Grammar. 1. Anabasis	Mathematics: (Required for adamssion to college.) 1. Algebra to Quadratics 2. Algebra from Quadratics 3. Plane Geometry. * Drawing: One hour daily
Cæsar	* Harmony:
German: 1. Elementary German	Zoölogy Botany Physiology

ADVANCED STANDING

Under regulations prescribed by the University, students who are able a offer for admission to the University more than fifteen units may receive cold toward the work of the Junior College. One unit in the Academy is counted as

Introductory Department

While the chief work of the Academy is with pupils of the academic age, it furnishes a home and excellent instruction by experienced teachers for pupils in the grades, even as low as the lifth. A few pupils of the age of ten to thirteen are in the Academy family, and special provision is made for their care. More attention than before will be given to this department the coming year. Those who have charge of young children who must be away from home will find their wants mer in this department. The classes are small, and individual attention is given each pupil.

Department for Teachers

The Academy sustains no normal department, but those who desire to teach and here an opportunity to complete their preparation for this work. Classes in the common branches, instruction in drawing and in music, and in physical culture, offer thorough facilities for preparation for teaching.

Business Course

To meet the needs of those who desire business training, arrangements have been made for instruction in Bookkeeping, Stenography, and Typewriting, to be taken with or independently of the regular course.
